United Way

United Way of Southwest Missouri & Southeast Kansas

We all want our children to succeed in life. The foundation for that success starts at birth. A child's experiences from birth to age 6 have a profound and lifelong impact. This is when 90% of the brain's growth occurs and children develop emotional and social attachment, as well as language and motor skills. So much depends on the environment in which we raise our children.

This is why United Way's Success By 6 initiative provides a resource like the Lend & Learn Toy Library to ensure young children are provided with learning environments during those critical development years, so they start school ready to learn and are successful in the years that follow.
