Now more than ever, United Way identifies the most critical problems facing our community.

EDUCATION

We fight so children and youth get a great start in life, do well in school, and reach their full potential.

- Enter school ready to succeed.
- Read proficiently by 3rd grade.
- Make a successful transition in and out of middle school.

HEALTH

We fight to promote healthy behaviors in our communities.

- Live a healthy lifestyle, eat well and be active.
- Avoid substance abuse.
- Have access to physical and dental health care.
- Have access to personal safety services for individuals and families who face threats to their immediate well-being.

FINANCIAL STABILITY

We fight to reduce the number of financially unstable families and individuals and support their financial independence.

- Community resources aimed at increasing employment skills.
- Affordable childcare to enable employment, health care, social services and daily living activities.
- Financial literacy programs.
- Resources or services for finding and maintaining affordable housing.
